Extended Abstracts of contributions presented at the International Symposium AQUAROM'98“, Galati,. Romania, 18-22. May 1998. Published by Universitatea „Dunarea de Jos“, Galati, Romania, XXVI, 398 pages.

This book contains the extended abstracts of the contributions presented at the International Symposium Aquarom'98, held in Galati, Romania Between May 18 and 22, 1998. The overall theme of the Symposium was the „Fisheries Management in the Danube River Basin“. The papers were printed as received from the authors without any peer review or editing. The book also contains a large number of contributions dealing with sturgeon species directly while several other papers consider habitat issues and general fisheries aspect with high relevance to sturgeons.
